Monrovia

## Weakly

How can a paper become so useless that it has less value than it's raw materials? Monrovia Weekly is so useless it makes the reporting in The Shadow look good. Maybe Monrovia is a little slow but it seems that a newspaper should fulfill it's purpose and stick to issues within it's domain. For real local news check out Monrovia Now.

Where's Rosemary,  
baby...

Where oh where has Rosemary gone? The shining star of local resistance in sweet little Monrovia. Ms Harrahill has gone from No. 1 on Monrovia's police most wanted list to relative obscurity. The Monrovia Police Department spent so much time tracking her kids that one has to wonder if they did anything else. the local donut shops suffered as the Gem City cops spent more time tracking down the Harrahill clan than consuming local carbs and coffee. Those home-schooled kids must have children of their own by now. Here we go again...

## Beijing to Open a Consulate in Monrovia

The asian population has increased so much recently that China has decided to open a consulate on Myrtle Avenue. The location will be the abandoned IMAX, excuse me...that was a lie from Krikorian and our wonderful city leaders. Well...not IMAX but pretty big screen theater. So, the theater is gone. Monrovia is too slow to open. Local business's have been crushed. Maybe Tommy Boy Adams wants to turn Monrovia into orange groves again.

## Bob Bartlett Avenue moved to El Monte

So, who is Bob Bartlett.? Unbeloved mayor of Monrovia in the 80's, the 90's, and still haunt us today. Mr Bartlett who still holds the record for time as mayor of a city that he didn't live in is back in the news. What a wonderful way to bring the thankfully dead back to our memories than naming a street after him. The much falsely celebrated mayor was actually an El Monte resident. This is a guy that grew fat by milking every advantage as mayor of our beloved town. Crime and drugs were rampant during his tenure. Monrovia's deliverance from the pit of despair had nothing to do with his leadership. This long-term fat-cat said his farewell to the political arena by attempting to hoist his long-time girlfriend over the side of a bridge. Creepy Tom Adams and his clowns in tow couldn't wait to name a street after this sterling example of a role model. Birds of a feather...
